

**Northern Nevada Chapter 126
November 2013 Newsletter**

**PRESIDENT
JASON BENDER**

Thanks to everyone who came out to the Lunch meeting last month. We had a great turnout and got to see some new faces that aren't usually able to join us at the evening meetings. This month we're back to normal time. Thanks to Dan Birkel and Steve LeCam for their great insight into code changes and how they are going to impact our work in the HVAC community.

We're also gearing up for the annual Wine Tasting 12/6 from 6-8PM at Whispering Vine on Mayberry. Please plan to attend this great social event and fundraiser. Anybody with donations or sponsorship ideas please contact me and see the attached flier for event details.

Thanks

Jason Bender

2013/2014 ASHRAE Northern Nevada President

PRESIDENT ELECT / PROGRAMS CHAIR:

Speaker:

“Acoustics/Vibration Best Practices for HVAC Equipment”
Brandon Wallace – BRD Noise & Vibration Control

Bio:

Brandon Lee Wallace, Southwest Regional Sales Manager of BRD Noise and Vibration Control, Inc. is a graduate of Kansas State University with a B.S. in Chemical Engineering.

Brandon started with the Trane Company in 1999 at their Screw and Scroll Chiller Business Unit as a Marketing Engineer after successfully completing the Trane Co.'s Graduate Training Program. During his 7 years at Trane, Brandon held multiple positions in both Domestic and International market segments with responsibilities for executing domestic price/volume/share goals, product support, and management. In 2006, Brandon joined BRD as their Southwest Regional Sales Manager responsible for acoustical design and sales. BRD Noise and Vibration Control, Inc., provides noise control services for HVAC equipment and Brandon's knowledge of and experience with HVAC equipment helps enhance BRD's understanding of this market.

Topic Summary:

Brandon's presentation will provide an overview of acoustic terminology used in the HVAC industry (dB vs dBA, sound power vs. pressure, etc.) and to apply noise and vibration control best practices and treatments for HVAC equipment such as indoor/outdoor chillers and roof mounted equipment.

I look forward to seeing you all at Pinocchio's for dinner!

RESEARCH PROMOTIONS CHAIR
SANDOR DURAN P.E., CEM

ASHRAE Members-

As we continue our 2013/2014 research promotion campaign the board has decided to make November our Research promotions night and we would like to thank the following people for personally make a contribution this months meeting:

Mr David Wyllie, PE.
Mr Jason Bender
Mr Sandor Duran, PE
Mr Chris Little
Mr Michael Lotspeich
Mr Bryan Tilton PE.
Mr. Brian Bassi

As a chapter we are on our way to meeting our goal of \$5,000 with a very successful golf tournament and the people that have already contributed this year. There is still a lot of work to be done though and a great way to help is our upcoming wine tasting event on Dec. 6th at the whispering vine. I'd like to thank those that have contributed in the past, but we will need everyone's help to reach our goal for this year. Please start thinking about what you can do as an individual to help our chapter do its part to support the research projects that help keep our industry moving forward by improving technology.

Please at a minimum take some time to request that your company support our chapter with a donation to the ASHRAE RP Campaign!

To make a contribution online please visit the following website:

<https://xp20.ashrae.org/secure/researchpromotion/rp.html>

Please bring donation to a meeting and give it to me there! You will receive receipt that can be used for tax-deduction purposes.

If you would like to see more information on how ASHRAE uses our donations you can visit <http://ashraerp.com/research.html> and you will see that this world-wide effort also supports numerous projects within our region totaling over \$1.4 million. This is a great cause that benefits us all and I hope that everyone will continue to help our chapter support it. If you know a specific research project you would like your money to go to, your donation can be bookmarked to that project.

New this year ASHRAE RP is allowing its members to bookmark there donation to any of the ASHRAE managed scholarship. The scholarships can be found at <https://www.ashrae.org/membership--conferences/student-zone/scholarships-and-grants/ashrae-scholarship-program>. Please look at the scholarships and forward them on to any student can take advantage of them

With your help we can make the Research Promotions 2013/14 campaign more successful than the 2012/13 campaign.

Thank you,

Sandor Duran, P.E., CEM

Lately, I have gotten many inquiries onto the benefits of joining ASHRAE. Well the most important reason to join is so that you can get full access to music videos like this: <http://www.youtube.com/watch?v=Wvp6fyhQKY8>.

Yes you're generous contributions go into wonderful and insightful productions such as that train wreck. But all kidding aside, you're membership goes into the core of our industry which is promoting research for topics that become guidelines and sometimes code for what we design, build, and live in. It's also a great way to connect with other people in the industry whom we sometimes don't have the opportunity to. Remember you can't spell membership without "me". So include yourself in this great mind blowing industry and everything it has to offer!
